

Fast, Accurate, and Hassle-Free Global Payouts for Your Gaming Community

Scaling your gaming business shouldn't mean struggling with payments complexity. Tipalti makes global payouts seamless, automating every step so you can pay players, creators, and partners quickly and easily. With our powerful, scalable solution, your team can spend less time managing manual payment operations and more time focusing on growing your gaming ecosystem.

"In esports, prize pools are the driving force that gives tournament organizers, teams, and players the opportunity to compete at a high level. It's essential that payouts are distributed accurately and on time. Many tournaments are held on a daily, if not hourly, basis, so having an efficient accounts payable system like Tipalti ensures all parties involved can stay competitive."

Esports Business Network

1. Pay Globally With Ease

Gaming companies can use Tipalti to automate and simplify global payouts, allowing you to expand into any region without barriers and freeing you up to focus on growth.

- Pay across 196 countries, in 120+ currencies with 50+ payment methods.
- Leverage our partnerships with Citi, JP Morgan Chase, and Wells Fargo for reliable and secure global payments.
- Stay compliant with US/Canada and UK/Europe regulations. Tipalti is regulated as a money services business in the US/Canada and as an EMI in the UK/Europe.
- Support for PayPal Mass Transaction Model—fund and send PayPal payouts directly within the Tipalti Hub, no separate account needed.

2. Provide a Branded, Customizable Self-Service Payee Experience

Offer a fully branded, self-service payments experience to your tournament winners, developers, and partners. Tipalti helps you build greater transparency, increase brand loyalty, and keep your gaming ecosystem connected.

- **Flexible funding options:** Fund via local bank transfer, wire, credit card, or incoming payments with Auto-Top Up for touchless funding.
- **Multi-currency support:** Fund in 30+ currencies and execute currency conversions using live exchange rates, including FX hedging to reduce exposure to volatility.
- **Self-serve payment management:** Payees can easily manage their payment methods, contact info, tax details, and view payment history with full visibility.
- **Global support:** Provide 27-language multilingual support, from onboarding to digital tax submissions, to deliver the best experience for payees worldwide.
- **Flexible payment scheduling:** Execute payments across multiple countries and currencies in a single batch.

3. Seamless Integration Across Your Tech Stack

With Tipalti, you can easily integrate payments into your gaming workflows using flexible deployment options that make payment operations simple and hassle-free.

- **Flexible deployment options:** Choose from a branded portal, embeddable iFrame, or flexible APIs to suit your needs.
- **Custom integrations:** Access RESTful APIs, SDKs, and full documentation.
- **Developer Hub and sandbox environment:** Tipalti provides a Developer Hub with sample code and a sandbox for testing, helping you tailor payments to your specific needs.
- **Pre-built integrations:** Sync payment data with leading ERPs and accounting software like QBO, Xero, NetSuite, and more, or connect with third-party systems for performance marketing and payment calculations.
- **AI-based iFrame generator:** Easily align the iFrame with your brand using our AI tool.

4. Mitigate Risk With Built-In Compliance and Controls

Reduce operational risk by automating and securing your gaming payouts with Tipalti's built-in compliance and fraud protection measures.

- **Easily comply with tax and regulatory requirements:** Our KPMG-approved tax engine adheres to US, UK, Canada, and EU regulations, and handles tax forms across 62 countries.

- **Comprehensive tax reporting:** Eliminate the hassles of managing W-9/W-8 forms, 1099/1042-S reports, VAT Tax ID validation, DAC7 data collection, and more, using our auto-calculated withholdings and eFiling integrations for efficient year-end reporting.
- **Fraud protection:** Safeguard your gaming operations with proactive monitoring and "Do Not Pay" national blacklist screening to block fraudulent payees.
- **Platform security and internal controls:** Protect your ecosystem with encryption, 20+ role-based permissions, SSO, and multi-factor authentication. Implement strong internal controls, such as separation of duties and payee update approvals, to keep operations secure.

5. Easily Connect Your Pay-In Providers and Manage Your Cash Flow

We know gaming businesses are often strapped for cash, so Tipalti makes it easy to connect your payment systems for receiving money and sending payments. With Tipalti, incoming funds flow smoothly into outgoing payments.

- **Seamless integration:** Connect your existing pay-in provider (e.g., Stripe, Payoneer) with Tipalti without disrupting your workflows.
- **Unified fund management:** Manage both incoming funds and outgoing payments in one platform, giving you full visibility, simplifying reconciliation, and improving cash flow management.
- **Provider flexibility and security:** Work with Tipalti's pre-approved providers or select your own for safe, compliant transactions with tailored recommendations for global or domestic needs.
